Summary

I'm a passionate and detail-oriented Full Stack Java Developer with hands-on experience in building scalable, high-performance applications using Spring Boot, Microservices architecture, React.js, Tailwind CSS, MySQL, and Hibernate.

With 500+ DSA problems solved, I have developed a strong foundation in algorithms and data structures, enabling me to write efficient and clean code. I believe in writing maintainable software that scales — both in terms of performance and team collaboration.
